I've amended the SOW (attached). Started modifying Alyse's draft letter but will need to work with her this week to finish (locked out of track changes for some reason so just used strikeout). SOW is much better (thanks to Amer's first pass) but letter still needs work this week.

Thanks,

Brad and Amer,

How soon can you get me a revised SOW for the AOC mod? RA has requested a briefing on the project schedule in advance of the Sept 30 meeting with Republic. I would like to meet with Lynn and Alyse early next week to ensure we are all on the same page, and then brief the RA on Friday, if he is available. Please let me know status of SOW. Thanks!
